FERTILIZERS FOR CORN.-We were informed some time ago by a correspondent from the Feasterville section that a great! deal of the fertilizers which were being hauled out by the farmers would find its way to the corn hills. A farmer from the Green brier section stated to us that there was more thorough preparation for corn this year in that section than in many years. We hope this may prove true of the entire county, but we heard, however, from a Jackson Creek farmer that the negroes in that section were cleaning up every straw field in order to put in cotton.

We will hope for the best. A TOUR ON FOOT.-W. R. Meserole Jr. states that he has traveled from We donbt not but that they will spend Kansas City Mo.
